Shoe width: EE (Wide)

Shoe color: black

The CCM TACKS 6092 SR is a hockey skate designed for everyday use by adult players looking for a wider fit. The EE version offers a wider fit, which is especially important for players with more volume in the forefoot area or generally wider feet. The black color scheme remains classic and understated.

In hockey, in particular, the fit often makes the difference between a stable stance and constant readjustment. A wider-cut skate provides the necessary foundation here, ensuring the foot sits more securely in the boot and creating a more direct feel on the ice for edge changes, acceleration, and changes in direction. For club players who skate several times a week, this is an important consideration when choosing equipment.

For skates in EE width, it's worth comparing your usual skate size with the shape of your foot to ensure that length and volume match properly.
