Goalkeeper color: steel

WARRIOR GITTER CAT EYE CE F2 STAHL is a goalie cage designed for hockey use and is intended for goalies who specifically prefer a Cat-Eye design when replacing or setting up their mask. The stainless steel version has a sleek, functional look and is particularly well-suited for regular training and game play, where durability and a clean, familiar design are important.

- Product Type: Goalie cage for hockey mask
- Style: Cat Eye CE F2
- Material: Stainless steel

Product information

- Color: Steel
- Size: SR Size 1
- IntendedUse: Goalie equipment for practice and games

Goalies, in particular, who meticulously tailor their equipment, pay attention not only to how the cage fits the mask but also to maintaining their usual field of vision. The Cat Eye shape is a familiar feature in a goalie's daily routine because it directly influences how they see the action in front of the net. In the stainless steel version, the cage remains a robust component of the mask, ideal for club players and ambitious goalies who use their equipment regularly and don't want to take unnecessary risks with replacement parts.

It's important to ensure a proper match with the mask's shape and size; the size listed here is SR Size 1.
