Product information

KOHO KOHO LEATHER STRAP 7113 SHORT is a short leather strap for hockey equipment and is particularly suitable for replacing a worn-out strap or restoring existing equipment to working condition. The LTS2 model in white is specifically designed for a compact, short strap length and is suitable for applications requiring precise, simple fastening.

- Product Type: Short leather strap for hockey equipment
- Model: LTS2
- Material: Leather
- Length: short
- Color: white
- Application: Replacement part for existing equipment

Especially in everyday training and club life, it's often the small replacement parts that determine how quickly equipment can be put back into use. A short leather strap like this one is therefore particularly useful for teams, coaches, and players who want to keep their equipment in working order without having to spend a long time searching for a suitable off-the-shelf solution. Leather remains a tried-and-true material in hockey when it comes to classic strap solutions.

Before making a selection, it's worth taking a quick look at the length and design of the existing strap to ensure that the short version, LTS2, is compatible with your current equipment.
