Product information

KOHO LACE SYSTEM FOR LEG GUARDS / PIECE is a classic replacement part for goalies when they need to securely and neatly fasten their leg guards again during practice or a game. Especially in everyday club life, where equipment is regularly adjusted or replaced, a compatible lacing system ensures a familiar and straightforward way to secure the pads.

- Product Type: Lacing System for Leg Pads
- Application: Goalie equipment in hockey
- Compatibility: Fits Koho leg pads
- Packaging: Single piece
- Color: black/white
- Use: To replace or supplement existing lacing
- Installation: Classic attachment via lacing channels on the leg pads

With goalie leg pads, it's often not just the protection but also the fit of the fastening system that makes the difference. A lacing system like this works well with goalie gear that continues to be used with a traditional lacing setup. This is particularly useful for club players and teams when existing Koho pads are being reused, maintained, or prepared for training. The black-and-white design remains simple and complements the equipment.

Before replacing the laces, it's worth taking a quick look at the existing lace guide on the leg pads to ensure the length and design match your current equipment.
