Product information

TRUE BUCKLE FOR LEATHER STRAPS is the right replacement part when you need to securely fasten a leather strap on your hockey equipment again. A functioning buckle is especially important for shin guards and similar pieces of equipment to ensure everything fits snugly and doesn't slip during practice or a game. Available here in white.

- Product Type: Buckle for leather straps
- Application: Replacement part for hockey equipment with leather straps
- Function: for fastening and securing a strap
- Color: white
- Brand: TRUE
- Package contents: 1 buckle

Small parts like these often don't get much attention until an existing fastener is damaged or no longer holds securely. That's why it makes sense for club players, parents, and teams to keep an eye out for compatible replacement parts when purchasing equipment. A new buckle can help you continue using a trusted piece of equipment instead of having to replace it because of a single defective clasp.

Before replacing it, briefly check whether the shape and width match your existing strap setup.
