Product information

Shoe color: white

WARRIOR HALTER ALPHA XCL is the original blade holder for Warrior Alpha skates and a solid choice when replacing a damaged holder or restoring a heavily used skate to playing condition. The design is both lightweight and sturdy, ensuring direct contact between the boot and the blade and providing a controlled and precise skating experience on the ice.

- Product Type: Original blade holder for ice hockey skates
- Compatibility: fits Warrior Alpha skates
- Construction: Lightweight and sturdy for a secure connection between the boot and the blade
- Sensation: Direct power transfer and precise edge control
- Application: Replacement part for repairing or replacing worn-out holders
- Color: white
- Variant: left or right
- Package contents: Typically sold individually, depending on the store

A properly fitting holder makes a big difference, especially during regular training or in everyday club activities. When the boot sits securely on the blade, changes in direction, pressure build-up, and the first step remain predictable. That's exactly what this holder is designed for. For players who have received their Warrior Alpha skates and don't want to modify them unnecessarily, the original version is usually the obvious choice.

To find the right size, check the embossed mm length on your current holder or runner.
