Product information

Sports Nutrition: Muscle Building and Strength Training

Feature: Tahitian Vanilla

NUTRIATHLETIC NA WHEY PROTEIN ISOLATE TAHITIAN VANILLA is a whey protein isolate for athletes who, after intense strength training sessions, seek a high protein content and a clean, minimalist formula. The Tahitian Vanilla flavor adds a pleasant vanilla note to shake routines designed for muscle and strength building.

- Product Type: Whey protein isolate with sweetener
- Protein content: 87.3 g per 100 g
- Carbohydrates: 2.3 g per 100 g, of which 2.3 g are sugars
- Fat: 0.8 g per 100 g, of which 0.1 g are saturated fatty acids
- Ingredients: 97% whey protein isolate with sunflower lecithin
- Flavor: Tahitian Vanilla
- Intended use: Muscle building and strength training
- Net weight: 800 g

Especially in a regular training routine, where exercise, recovery, and nutrition need to work together effectively, a protein powder like this fits well into a structured sports nutrition plan. The very high protein content is clearly the main focus, while fat and carbohydrate levels are low. This makes the product particularly appealing to ambitious strength athletes and team athletes who want to specifically supplement their protein intake without making the formula unnecessarily complex.

Contains sweeteners and milk components from whey protein isolate.
