Product information

Color: black

Stick size: SR

The CCM RIBCOR TRIGGER 10 PRO SR is a hockey stick designed for performance-oriented senior players who need to get a quick shot off from tight angles. The ultra-low kick point is clearly designed for players who want to release the puck without a long wind-up while maintaining control in stickhandling.

- Technology: Ultra-low kick point for very fast shot release
- Construction: Nanolite Shield Carbon Layering for light weight and high durability
- Shaft Geometry: Ergonomic EC shape for a comfortable grip and direct control
- Blade: UL1 blade for a lighter balance and precise puck feel
- Curvature: P28 or P29
- Hardness: 70, 75, or 85
- Blade orientation: left or right
- Size/Color: SR in black

This model's well-balanced design really shines during fast-paced offensive play. Its light weight facilitates quick shot release, while the shaft's shape sits comfortably in your hands and provides a clean feel during passes, one-timers, and shots under pressure. The lightweight UL1 blade keeps the stick well-balanced, which is noticeable during puck handling and fast-paced action around the net. This makes this model particularly well-suited for ambitious club players who seek speed in their game and want a very direct feel for their stick.

When selecting a stick, it's worth taking a close look at the curve, stiffness, and blade orientation to ensure the setup matches your shooting style.
