Product information

Shoe width: R (Regular)

TRUE CATALYST 7X4 REGULAR SR is a hockey boot designed for ambitious players who seek a close connection between their foot, blade, and movement on the ice. The anatomically shaped, one-piece shell and thermoformable materials clearly prioritize fit, direct support, and high comfort—even during intense sessions.

- Technology: thermoformable materials for a custom fit
- Construction: anatomically shaped, one-piece shell
- Functionality: Composite construction for stable support and direct energy transfer
- Feel: Designed for speed, pressure build-up, and controlled power transfer
- Fit: Regular, Width R
- Age group: SR
- Intended use: Training and competition at a performance-oriented level
- Sizes: 7 to 11, including half sizes

It's especially during quick changes of direction, powerful pushes, and tight turns that you realize how important a well-fitting skate is. The shell provides firm support for the foot without compromising comfort, while the construction transfers the force generated during push-off as directly as possible to the ice. This makes it a great fit for club players and ambitious senior players who train regularly and expect their equipment to deliver a precise, smooth skating experience.

The Regular fit with width R is suitable for players who aren't looking for a particularly narrow or wide fit.
