Product information

Shoe width: W (Wide)

TRUE CATALYST 7X4 WIDE INT is a hockey skate designed for ambitious players who prioritize a wide fit, a secure hold, and high comfort during regular practice and games. The anatomically shaped, one-piece shell fits snugly around the foot and creates a precise connection between the foot and the skate.

- Technology: thermoformable materials for a custom fit
- Construction: anatomically shaped, one-piece shell
- Functionality: advanced composite construction for optimized support and direct energy transfer
- Feel: Designed for speed, power, and controlled power transfer
- Fit: Wide Fit (width W)
- IntendedUse: For intense training and ice hockey games
- Size: Skate sizes 6 and 6.5

The combination of an adaptive design and a sturdy shell construction really makes a difference, especially during quick changes of direction, powerful bursts of speed, and long sessions. The skate provides a snug, athletic fit without sacrificing comfort. This is particularly appealing to ambitious players who are looking for a noticeable difference from simpler models and value clean power transfer.

The wide W-width is suitable for feet with more volume. To make the right choice, take a close look at the length and width of your foot.
