Product information

TRUE CATALYST 3X4 INT is an ice hockey skate designed for ambitious players who are looking for a responsive, agile skating experience during practice and games, without compromising on durability. New for 2024, this model combines a lightweight design with TRUE's signature anatomically designed fit.

- Technology: patented one-piece shell construction
- Fit: anatomically shaped for a snug, athletic fit
- Feel on the ice: light and agile
- IntendedUse: Ice hockey for competitive and club players
- Price positioning: TRUE's premium fit in a more affordable segment
- Sizes: Skate Size 4, 4.5, 5, 5.5, 6, 6.5
- Model Year: 2024

Regular time on the ice really highlights how important a perfect balance of fit, stability, and responsiveness is. The one-piece shell construction ensures direct contact with the skate for a hockey boot in this class, while the anatomical shape brings the foot closer to the material. This supports controlled edge work, quick changes of direction, and a compact feel inside the boot. This is particularly appealing for club players and performance-oriented junior players at the intermediate level who are looking for a high-performance model that doesn't start at the top price point.

When choosing the right size, it's worth taking a close look at the skate size to ensure that the snug, performance-oriented fit matches the shape of your foot perfectly.
