Product information

The TRUE CATALYST 3X4 SR is an ice hockey skate designed for players who are looking for a snug fit with a lightweight, flexible construction for both practice and games, while still keeping the price within a reasonable range. The 2024 model features the brand's signature anatomical design and is aimed primarily at ambitious club players who are regularly on the ice.

- System: patented one-piece shell construction
- Fit: anatomically designed for a snug fit on the foot
- Mobility: Designed for light agility
- Durability: developed without compromising on durability
- Intended use: Ice hockey, training, and competition
- Age group: SR
- Sizes: 7 to 11.5 in half sizes
- Positioning: Premium TRUE fit at an affordable entry-level price

It's especially in everyday club play that you realize how important a well-fitting skate is: quick changes of direction, power in those first strides, and a stable feel in tight game situations depend heavily on the shape of the boot. The one-piece construction of the TRUE CATALYST 3X4 SR is designed to bring the foot and shell closer together. This ensures an immediate, controlled skating feel without making the skate feel unnecessarily heavy. For players transitioning from a simple recreational skate to a more athletic model, this is a logical next step.

When choosing a size, it's worth taking a close look at the appropriate skate size within the SR model.
