Product information

TRUE CATALYST 5X4 JR is an ice hockey skate designed for young players who are looking for a precise fit with direct power transfer during practice and games. The modern shell construction conforms to the shape of the foot and combines comfort with an agile feel on the ice.

- Product Type: Junior ice hockey skates
- Construction: modern shell construction with anatomical shaping
- Fit: tailored to the individual foot shape
- Feel: Designed for speed and agility
- Power transfer: Direct, stable stance for efficient energy transfer
- IntendedUse: Training and competition at the youth level
- Sizes: Skate Size 1, 1.5, 2, 2.5, 3, 3.5

Especially in junior hockey, a well-fitting skate makes all the difference. When quick changes of direction are required and you need to push off the ice with precision, the anatomical design helps keep the foot stable inside the skate. This ensures a controlled feel when turning, accelerating, and in tight game situations. At the same time, comfort remains a key consideration from the very beginning, especially during regular club practices.

Junior sizes should be chosen carefully based on foot shape and skate size to ensure the best fit and optimal performance.
