## Product information

---

Shoe width: R (Regular)

TRUE CATALYST 7X4 REGULAR INT is a hockey skate designed for ambitious players who seek a perfect balance of fit, support, and direct power transfer during regular practice and games. The anatomically shaped, one-piece shell clearly prioritizes a precise fit, while thermoformable materials help the skate adapt to the foot.

- Construction: anatomically shaped, one-piece shell
- Customization: thermoformable materials for a more personalized fit
- Functionality: advanced composite construction
- Training benefits: optimized support and direct energy transfer
- Comfort: Designed for a perfect fit and comfort during the demands of daily hockey play
- Fit: R Regular
- Sizes: Skate sizes 4 through 6.5, including half sizes
- IntendedUse: For performance-oriented ice hockey

A stable shell construction really makes a difference, especially during quick changes of direction, hard accelerations, and repeated stress during daily club play. The skate promotes a precise skating feel without compromising on comfort. This is especially important as ice time increases and the foot needs to stay securely in the boot even under pressure. The combination of a moldable fit and robust construction is clearly aimed at players who want more than just a standard model.

The regular fit is suitable for feet of normal width. For sizing, take a close look at skate sizes 4 through 6.5.
