Shoe width: R (Regular)

The TRUE HZRDUS 9X INT is a hockey boot designed for ambitious youth players and advanced players at the intermediate level who are looking for a snug, athletic fit on the ice. The R width version is designed for a regular foot shape and is clearly positioned in the performance-oriented segment.

- Product Type: Ice Hockey Skate
- Model Series: HZRDUS 9X INT
- Intended use: Training and games at the intermediate level

Product information

- Fit: R, Regular
- Sizes: Skate sizes 4 through 6.5, including half sizes
- Size increments: 4, 4.5, 5, 5.5, 6, 6.5

Especially when skating regularly, it's important to have a skate that fits snugly and supports efficient power transfer. That's exactly where this model shines: The intermediate version appeals to players who are transitioning from classic youth-sized equipment to adult gear and expect more precision and stability while skating than what basic entry-level skates provide. The available half sizes also help fine-tune the fit, which makes a difference both during practice and during quick changes of direction in a game.

When selecting a pair, it's worth taking a close look at the skate size and the regular fit to ensure that the length and foot volume match well.
