Product information

Shoe color: black

Shoe width: R (Regular)

The TRUE CATALYST 3X6 REGULAR SR is an ice hockey skate designed for ambitious players who train regularly or play for a club and are looking for a responsive, agile skating experience. The Catalyst line is designed for an anatomical fit, ensuring the foot sits securely and allowing for quick reactions on the ice without any feeling of instability in the skate.

- Product Type: Ice hockey skate for field players
- Fit: Anatomical, in shoe width R Regular
- Feel: agile design for tight turns and quick changes of direction
- Intended use: Training and games with regular sessions
- Stability: Solid construction for a secure fit and direct power transfer
- Model: Senior SR
- Color: black
- Sizes: EU 42 to 47.5, Skate Size 7 to 11.5

On the ice, this model's strengths really shine when speed and agility need to work in harmony. For those who frequently accelerate from a standstill, want to execute clean edge changes, and don't want to have to fight against their skates with every step during practice, this model offers a comfort-oriented design with a sporty focus. Compared to basic recreational models, the CATALYST 3X6 feels more controlled and closer to the on-ice feel that many club players seek.

The regular fit is suitable for feet that are neither particularly narrow nor particularly wide.
