Product information

Shoe color: black

Shoe width: R (Regular)

TRUE CATALYST 5X6 REGULAR SR is a hockey skate designed for players who practice regularly or play for a club team and are looking for more stability, comfort, and a responsive feel on the ice. The Catalyst series is known for its flexible fit, and that's exactly what you'll find here in a sporty design built for quick bursts of speed, tight turns, and controlled changes of direction.

- Product Type: Hockey skate for regular on-ice use
- Fit: Anatomical and flexible with a secure fit
- Feel: Direct skating feel for agile movements
- Stability: Reliable support during practice and games
- Intended Use: Ambitious recreational and club players
- Variant: SR, Regular Fit in Black
- Sizes: Skate sizes 7 through 11, corresponding to EU sizes 42 through 47

On the ice, the combination of a stable stance and a flexible fit is especially noticeable when the pace picks up. The skate supports a clean push-off, remains controllable during turns, and keeps the foot securely in the boot without unnecessarily constricting it. This is a clear advantage over simpler models, especially during regular training sessions, longer practice sessions, and games.

The Regular fit is suitable for players looking for a balanced fit. To ensure you choose the right size, compare the skate size to your usual skate size.
