Product information

Shoe color: black

Shoe width: W (Wide)

The CCM VIZION WIDE SR is an ice hockey skate designed for ambitious players who are looking for a precise fit, plenty of support, and a responsive skating feel on the ice. The highly thermoformable boot conforms closely to the foot when heated, which can make a noticeable difference—especially during regular training and intense games. In the wide W version, the model also offers more room without sacrificing control.

- Product Type: Ice Hockey Skate
- Fit: W / Wide for wider feet
- Customization: highly thermoformable boot
- How it works: tight fit to the foot through heating
- Forefoot area: integrated toe cap with more room
- Feel: More direct power transfer and a secure fit
- Color: black
- Sizes: Skate Size 7, 7.5, 8, 8.5, 9, 9.5, 10

In everyday hockey play, this skate's strengths are most evident in situations that require tight turns, quick bursts of speed, and a secure footing. The combination of a thermoformable construction and a newly developed toe cap ensures a snug fit in the heel and midfoot areas without unnecessarily constricting the forefoot. This is particularly appealing to club players looking for a performance-oriented skate who don't want to compromise on fit during longer ice sessions.

When selecting a pair, it's worth taking a close look at the W width if you regularly need more room in the forefoot area.
