Product information

Shoe color: black

Shoe width: R (Regular)

TRUE CATALYST NITRO JR is a junior hockey skate designed for young players who train regularly and are already looking for a responsive, secure feel on the ice. The Catalyst line is known for its flexible, anatomical fit that cradles the foot well and provides noticeable support during quick movements.

- Product Type: Junior Ice Hockey Skate
- Fit: Anatomical and flexible with a secure hold
- Feel: Direct skating feel for quick bursts of speed and tight turns
- Stability: Designed for regular practices and games
- Intended use: Youth, recreational, and club hockey
- Width: R Regular
- Color: black
- Sizes: EU 33.5 to 36.5, Skate Size 1 to 3.5

Especially for youth players, the right pair of skates makes a big difference when training on the ice frequently and executing movements with precision. This model combines comfort with the necessary stability to ensure that changes of direction, accelerations, and turns remain controlled. At the same time, the foot sits securely in the boot without feeling unnecessarily constricted, which is noticeably more comfortable during daily training and longer sessions on the ice.

The regular width suits many common foot shapes. When selecting junior skates, it's worth taking a careful look at the length and fit to ensure that support and freedom of movement go hand in hand.
