Product information

Color: black

Bends: T92

Stick size: JR

The TRUE HZRDUS 3X4 JR is a junior hockey stick designed for young players who are looking for a direct shot and a clean feel for the puck during practice and games. The low-kick profile quickly transfers energy into the shot, which is particularly noticeable on shots from tight angles and quick wrist shots.

- Technology: optimized low-kick profile for fast loading and explosive release
- Construction: shaft shape with square corners and double concave
- Puck feel: glossy grip surface and textured blade
- Blade: Reinforced construction with three strategically placed ribs
- Curvature: T92
- Hardness: 20, 30, 40, or 50
- Blade orientation: left or right
- Age group: JR, color black

Especially at the junior level, it makes a difference when the stick responds quickly and allows for precise puck control during stickhandling and shooting. The special shaft shape fits comfortably in your hands, while the textured blade provides a controlled feel when picking up and carrying the puck. Added to this is the reinforced blade, which is specifically reinforced at typical contact points, thereby supporting precise shots.

When selecting a stick, the most important factors to consider are the appropriate stiffness, the desired blade orientation, and the T92 curve, all in consideration of your skill level and height.
