Product information

Protection size-1: SR

CCM TACKS XF PRO SR elbow pads are designed for ambitious senior players who want reliable protection for their elbows during practice and games while maintaining mobility. As part of the Tacks line, they are clearly designed for the intense demands of everyday hockey, where checks, battles along the boards, and hard stick contact are all part of the game.

- Product Type: Ice hockey elbow pads
- Line: TACKS XF PRO
- Age group: SR
- Protection area: Elbows and forearms
- Intended use: Ice hockey practice and games
- Fit: Designed for seniors
- Sizes: S, M, L
- Brand: CCM

Especially at higher levels, it's not just the protective effect that counts, but also how naturally a pad integrates into your movements. An elbow pad of this caliber should stay securely in place during stick handling, in tight game situations, and under repeated stress, without causing unnecessary restriction. This makes it particularly appealing for club players who are on the ice several times a week and are looking for gear that keeps up with the pace of the game.

For a clean fit, choose size S, M, or L to match your existing adult-sized equipment.
