Product information

Protection size-1: JR

CCM TACKS XF PRO JR elbow pads are designed for young players, for whom a secure fit and freedom of movement are equally important during practice and games. Especially at the junior level, elbow pads must effectively absorb impacts and falls without interfering with stick handling, body-to-body contact, or quick changes of direction.

- Product Type: Ice Hockey Elbow Pads
- Line: TACKS XF PRO
- AgeGroup: JR
- IntendedUse: Training and games for youth players
- Protection area: Elbows and forearms
- Fit: Designed to meet the specific needs of junior hockey players
- Sizes: M and L
- Variant: JR, size M as per existing product specifications

The CCM TACKS XF PRO JR is ideal for young players who need equipment that not only protects but also works with their movements. On the ice, this is especially evident when the arms are constantly in motion: when taking checks, in tight playing situations along the boards, or during repetitive training drills involving frequent shots and stick contact. A model from the TACKS family is clearly designed for everyday hockey use with regular wear and tear.

When selecting a model, it's important to take a close look at the appropriate junior size to ensure the elbow pad fits snugly and doesn't slip during movement.
