Product information

Protection size-1: JR

CCM TACKS XF80 JR elbow pads are designed for youth hockey and provide young players with protection in areas where things can get rough quickly during practice and games. Especially at the junior level, it's important to have equipment that allows for freedom of movement and reliably protects the elbows during falls, body-to-body contact, and plays along the boards.

- Product Type: Hockey elbow pads
- Model: EP Tacks XF 80 JR
- Age group: Junior
- Protection area: Elbows and forearms
- Intended use: Practice and games
- Sizes: S, M, L
- Fit: Tailored to junior sizes

In hockey, an elbow pad must not only provide coverage but also integrate seamlessly with the rest of the equipment. This is especially crucial for a junior model, where movements are more dynamic and less predictable. The CCM TACKS XF80 JR fits the bill because they're designed for young players who hit the ice regularly and are looking for a balanced combination of protection and mobility. It's also helpful for parents and club staff that the sizes S, M, and L provide clear categorization within the junior range.

It's important to choose the right junior size so that the elbow pad fits snugly and doesn't slip during movement.
