Product information

Protection size-1: SR

CCM TACKS XR 80 SR elbow pads are designed for senior players who are looking for solid protection during practice and regular games without having to make unnecessary compromises on fit. The ASD construction ensures good coverage of the elbow area and promotes a natural feel, which remains noticeable especially during frequent movements with the stick and upper body.

- Product Type: Elbow pads for ice hockey
- Technology: ASD construction
- Protection area: good coverage of the elbow area
- Fit: natural, flexible design
- Intended use: Practice and games
- Age group: SR
- Sizes: S, M, L, XL

For club players in particular, it's crucial that elbow pads strike the right balance between protection and mobility. This is exactly where this model shines: The design neatly covers the key areas without making the arm feel unnecessarily stiff. This helps during shots, battles along the boards, and in intense training sessions where the equipment needs to stay comfortable for extended periods.

When selecting a size, it's worth taking a close look at the appropriate adult size to ensure the pad fits securely and doesn't slip during play.
