The CCM HTC 920 TACKS SR WHITE is a senior combo helmet designed for regular use in ice hockey, where protection, ventilation, and a snug fit all need to come together. Especially during practice and in intense game situations, it makes a noticeable difference when the helmet not only fits securely but also better regulates heat and moisture inside.

For club players who are on the ice several times a week, the combination of padding, ventilation, and adjustability is especially important. The R3FLEX lining is designed for cushioning and comfort, while Nest Tech and TotalDri help keep the helmet's interior comfortable even during long sessions. In addition, ADPTFIT 360 offers easy fine-tuning, making it simple to adjust the fit without any extra effort. The FM580 visor completes the helmet as a full-fledged combo for practice and games.

When selecting a helmet, it's worth taking a close look at the appropriate adult size to ensure the helmet sits securely and evenly on the head.
