Helmet size 1: SR
Color: white

The CCM HT 920 TACKS SR WHITE is an ice hockey helmet designed for senior players who value well-engineered ventilation, a comfortable fit, and modern protective technologies during regular practice and games. Especially during intense action on the ice, you'll appreciate a design that effectively dissipates heat and provides a snug, stable fit all around the head.

Product information

- Technology: AER-TEC thermoregulation with ventilation openings and air channels
- Construction: 3D-printed NEST TECH structure to support air circulation
- Protection system: R3FLEX 3-in-1 foam for comfort and dynamic response upon impact
- Interior: AER-TEC TotalDri sweatband for moisture management
- Adjustment: ADPTFIT 360 system, tool-free one-step adjustment
- Fit: Slim, close-to-the-head design
- AgeGroup: SR
- Sizes: S, M, L

In everyday hockey, it's not just about protection—it's also about how a helmet feels during long practice sessions. Here, ventilation, sweat management, and fit work seamlessly together: Fresh air is distributed throughout the helmet via the system, while heat can escape through openings at the top and back. Added to this is an interior design that ensures a high level of comfort and is tailored to various impact scenarios. The white version looks crisp and classic on the ice.

To make the right choice for adult sizes, it's worth taking a close look at your head circumference and selecting the appropriate size: S, M, or L.
