Product information

Color: black

Helmet size 1: SR

The CCM HT 920 TACKS SR BLACK is an ice hockey helmet for senior players who are looking for a modern combination of ventilation, fit, and a sense of protection during regular practice and games. Especially during intense action on the ice, it makes a noticeable difference when a helmet not only fits snugly on the head but also effectively dissipates heat during play.

- Technology: AER-TEC thermoregulation with ventilation openings and air channels
- Construction: 3D-printed NEST TECH structure to support air circulation
- Protection system: R3FLEX 3-in-1 foam for comfort and reactive cushioning against impacts of varying intensities
- Moisture Management: AER-TEC TotalDri sweatband
- Adjustment: ADPTFIT 360 system, tool-free one-step adjustment
- Fit: Slim, close-to-the-head design
- Variant: Senior
- Sizes: S, M, L

In everyday hockey, what matters most is how securely a helmet stays in place during long periods on the ice. The ADPTFIT 360 System makes quick adjustments easy, while the close-fitting shape ensures a comfortable, stable fit. Added to this is the combination of ventilation, NEST TECH, and a sweatband, which creates a more comfortable environment inside the helmet during high-speed play and frequent line changes. The black CCM TACKS 920 is therefore particularly suited for club players who deliberately choose the latest gear over a simple standard model when it comes to helmets.

To find the right fit, match the senior model to your head circumference using sizes S, M, or L.
