Product information

Shoe width: D (Regular)

The CCM SK JS FT1 SR is an ice hockey skate for position players from the JetSpeed line; as the flagship model, it is designed to deliver a direct, responsive skating experience. In the senior version, this model is primarily aimed at ambitious club players who demand tight turns, quick changes of direction, and precise power transfer on the ice.

- Product Type: Ice hockey skate for position players
- Line: JetSpeed
- Model level: Flagship model of the series
- Age group: SR
- Fit: D / Regular
- Shoe sizes: Skate Size 6, 6.5, 10.5, 11
- IntendedUse: Ice hockey training and games

Especially during intense training sessions and games, a skate from the top model segment often makes all the difference in how you feel on the ice. A snug, athletic fit in the Regular Fit supports skate control without making the fit unnecessarily specialized. This is particularly helpful for players seeking a clean push-off, stable edge work, and a secure feel during fast-paced game situations. The senior model is therefore well-suited for experienced club players who deliberately tailor their equipment for speed and control.

When selecting skates, in addition to the skate size, the fit in width (D) is particularly important to ensure that support and skating feel are well-matched.
