Product information

Accessory color: white

Color: white

PRO EDGE SHOE LACES SPORTSTAPE are long shoelaces designed for sports use and a practical choice when you need a securely laced shoe during practice or a game. The white version is a classic fit for many indoor and athletic shoes, and the 213 cm length is suitable for models with a corresponding number of eyelets.

- Product Type: Sportstape Shoelaces
- IntendedUse: Sports and indoor shoes
- Length: 213 cm
- Color: white
- Other lengths: 244, 274, and 305 cm
- Design: Long laces for a secure fit in the shoe

In hockey, in particular, proper lacing makes all the difference: The shoe should fit snugly on the foot without the laces coming loose prematurely. Sports laces of this length are particularly useful for players who tie their shoes securely across multiple rows of eyelets or who deliberately opt for a longer version when replacing laces. A clearly selectable length is also helpful for teams, clubs, and parents of youth players when worn-out laces need to be replaced.

When making your selection, it's worth taking a quick look at the lace length you've been using or the number of pairs of eyelets on the shoe.
