Product information

Goalkeeper color: black

Goalkeeper size: SR

The WARRIOR X5 RTL SR is a goalkeeper chest protector designed for senior-level goalies looking for a flexible, easily adjustable protective solution on the ice. Especially when making frequent movements in the slot, in the crease, or when facing shots from tight angles, it's not just coverage that matters—it's also an arm design that doesn't hinder movement during the game.

- Technology: AxyFlex2 with a streamlined arm design for high mobility
- Shoulder construction: CoverEDGE+ with HyperComp-reinforced construction featuring seamless rib protection
- Protection Area: Bone system for more comprehensive coverage during backhand shots and shots from unfavorable angles
- Construction: Strategically placed foam pads
- Connection: Neoprene elements between the triceps, elbow, and forearm pads to reduce exposed areas
- Adjustment: Removable shoulder pad for customizable shoulder height
- Closure: Velcro adjustments on shoulders, back panel, sides, and torso
- Size/Color: SR, black, shooter sizes L/XL

In everyday goaltending, this model's strength is particularly evident when quick changes of direction and compact movements are required. The arms remain free, while the reinforced shoulder construction and the well-designed connection of the pads keep the protective area closed. This is particularly helpful for club players and ambitious goalies who want to tailor their equipment precisely to their posture, shoulder line, and range of motion.

The SR version is designed for goalkeeper sizes L/XL.
