Product information

Goalkeeper color: black

Goalkeeper size: SR

The WARRIOR X5 PRO SR is a chest and arm protector designed for goalies who prioritize coverage, mobility, and a precisely adjustable fit during practice and games. Especially in adult sizes, it's important that protection and freedom of movement work together without unnecessarily restricting the upper body.

- Technology: AxyFlex arm design for flexible, lightweight arm movement
- Protective Construction: Elite inner padding with HDPE plastic and HD foam
- Shoulder area: CoverEDGE+ with HDPE reinforcement that extends seamlessly into the chest area
- Adjustment: Removable shoulder pad for adjusting shoulder height
- Protection Area: Bone system for greater coverage against high-speed shots and shots from unfavorable angles
- Construction: Neoprene connections between triceps, elbow, and forearm pads to minimize gaps
- Closure: Velcro adjustments on shoulders, back panel, sides, and torso
- Variant: black, SR; available in sizes L, M, S, and XL

On the ice, the design is particularly noticeable when switching frequently to the RVH position or when traffic builds up in front of the net from tight angles. The shoulder area remains flat, while the arms are guided with freedom of movement. This helps goalies in everyday club and competitive play who want to tailor their protection closely to their own style. The neoprene connections keep the arm securely in place within the sleeve and contribute to a snug, integrated fit.

When making your selection, it's worth taking a close look at the desired shooter size and ensuring compatibility with the rest of your goalie gear.
