Product information

Goalkeeper color: black

Goalkeeper size: INT

WARRIOR X5 PRO INT is a goalkeeper chest protector designed for junior goalkeepers at the intermediate level who want to combine reliable protection with plenty of freedom of movement during practice and games. Especially during fast rebounds, close-range saves, and shots from awkward angles, it's crucial that the upper body remains well-protected without unnecessarily restricting movement.

- Technology: AxyFlex arm design for high mobility in a lightweight construction
- Protection: Elite inner padding with HDPE plastic and HD foam
- Shoulder Area: CoverEDGE+ with HDPE reinforcement for greater coverage and cushioning
- Chest construction: continuous design with no gaps in the rib area
- Arm construction: Neoprene connections between triceps, elbow, and forearm pads to minimize gaps
- Adjustment: Removable shoulder pad and Velcro fasteners on the shoulders, back panel, sides, and torso
- Size: INT, fits protector sizes S/M, M/L, and L/XL
- Color: black

In action, this model's strength is particularly evident when making frequent saves from close range and the chest protector moves smoothly with the body. The flexible arm construction supports active saves, while the seamless protective surface on the upper body provides a sense of stability in goal. This is particularly beneficial for young goalkeepers in regular club play because the fit can be easily adjusted in several areas, allowing for better adaptation to body type and equipment.

For a proper fit, it's worth coordinating the size with the chosen protective gear.
