Product information

Shoe color: black

Shoe width: W (Wide)

TRUE CATALYST 5X4 WIDE SR is a goalie skate designed for goalies who are looking for a wide fit, a secure hold, and a stable feel in goal during regular practice and games. The one-piece shell design is derived from the TRUE line and incorporates key features of the flagship model into a version designed for comfort and durable everyday use.

- Technology: NEUROFIT injection-molded Poly Fusion composite shell
- Construction: one-piece shell design with improved shell layering
- Protection: Good impact resistance for goalie use
- Mount: SHIFT ATTACK mount with steel
- Tongue: Lightweight, laminated tongue for a better fit and comfort
- Inner material: Clarino lining, moisture-wicking and with improved foot lockdown
- Side panels: PU leather for added durability
- Fit: Wide, SR, black, sizes EU 42 to 47

In goal, it's especially important how snugly the skate wraps around the foot and how stable it remains during lateral movements. The wide fit provides more room without compromising support. This is complemented by stainless steel rivets for long-lasting durability and an inner lining that wicks away moisture more effectively and supports the foot's position within the boot. The result is a goalie skate that feels especially comfortable for ambitious club goalies.

When selecting a pair, consider the wide W-fit and the specified skate size.
