Product information

Shoe color: black

Shoe width: R (Regular)

TRUE CATALYST 7X4 REGULAR INT is a goalie skate designed for ambitious goalies who seek a close connection to the ice during practice and games without compromising on comfort and durability. This model incorporates key technologies from the 9X4 and is designed for goalies who value agility in the butterfly position, stable support, and a precise fit in equal measure.

- Technology: NEUROFIT+ one-piece carbon fiber shell with thermoformable materials
- Freedom of Movement: MotionCuff collar system for greater ankle flexion
- Tongue: Lightweight professional goalie tongue with molded T-guard
- Construction: Plastic base shell insert for better rivet retention
- Durability: Stainless steel rivets and improved shell layering
- Mount: SHIFT ATTACK mount with steel
- Lining: Clarino liner
- Fit/Variant: Regular, black, Intermediate

Especially for goalies, the combination of a moldable carbon shell and a flexible upper quickly makes a difference: The skate fits snugly around the foot, supports controlled pushes, and allows for greater freedom of movement in the ankle area during deep movements. Added to this are a tongue tailored for goalies and a robust base that stands up to the regular wear and tear of everyday club play. For performance-oriented youth and club goalies, this is an exciting all-around package that balances a direct feel on the ice with solid durability.

Available in a regular fit in sizes 37.5 to 41, or skate sizes 4 to 6.5.
