## Product information

---

Shoe color: black

Shoe width: W (Wide)

TRUE CATALYST 9X4 WIDE SR is a goalie skate designed for performance-oriented goalies who need quick edge changes during the game, precise control in the crease, and plenty of flexibility in the ankle area. The wide fit in black is designed for senior players looking for the familiar TRUE feel in a game-ready design.

- Technology: one-piece NEUROFIT+ shell
- System: MotionCuff technology for greater freedom of movement in the ankle
- Feel: Designed for responsiveness, mobility, and speed between the posts
- Intended Use: Goalie skates for elite and ambitious senior goalies
- Fit: Wide / W for extra width
- Color: black
- Size: EU 42 to 46

The combination of a one-piece shell and a flexible cuff supports exactly what matters in modern goaltending: playing low, shifting explosively, and staying stable on the skate. Especially during repeated pushes, when pushing off from the butterfly position, or during tight movements near the post, the greater range of motion is noticeably beneficial without compromising control in the crease. This clearly sets this model apart from simpler goalie skates, which can be more restrictive.

The wide version is suitable for wider feet; for sizing, refer to skate sizes 7 through 11 or EU sizes 42 through 46.
