Product information

Color:	black
Goalkeeper Regular/Fullright:	Regular
Bends:	T31
Stick size:	INT

TRUE HZRDUS 5X4 INT is a goalie stick designed for goalies who want to actively carry the puck, move it forward, and react cleanly when building plays. The low-kick profile supports quick shots and passes, while the reinforced construction is designed to withstand the rigors of daily training and games.

- Technology: AXENIC one-piece construction
- Functionality: responsive low-kick profile
- Construction: Stiff, controlled overall feel with high manufacturing consistency
- Blade: SRT2 reinforcement ribs at key impact points
- Blade core: PASS with a less rigid, more shear-stable core
- Benefits: Improved energy distribution and long-term durability
- Curvature: T31
- Variant: INT, Regular, black

Especially in front of the goal, what matters is a stick that not only deflects shots but also remains predictable for the next pass. True's one-piece construction ensures a crisp, stable feel in the hand. Added to this is the reinforced blade, which better distributes the impact of hard shots across the structure. The blade core is tuned so that the feel of the stick doesn't become unnecessarily stiff and the stick remains durable even with frequent contact. This is particularly well-suited for junior and club goalies in INT sizes who are regularly on the ice and are looking for a durable stick with good puck control.

In the Regular configuration, the blade is on the left side when the stick is held in the catching hand.
