Product information

Color: black
Stock type: Links
Bends: T31
Stick size: INT

TRUE HZRDUS SMOKE INT is a goalie stick designed for goalies who want to quickly clear the puck from the danger zone after a save and open up passing lanes without delay. The low kick aids in quick puck release, which is particularly noticeable during regular practice and in the flow of the game when playing in tight spaces.

- Product Type: Ice hockey goalie stick
- Kick point: low kick for quick clearances and swift passes
- Resin system: RESFLO for a more uniform laminate, better puck feel, and durability
- Construction: Precision Laminate Design for balanced handling and low weight
- Blade: SRT-4S Blade Tech with Braided Aramid Technology for enhanced blade strength and control
- Damping: Vibration Suppression System to absorb impact energy
- Variant: INT, Left-handed, T31 flex
- Color: black

Especially for youth and club goalies using the INT Groß size, how stable a stick feels during hard shots and fast passes is often crucial. Several features work together effectively here: The balanced construction keeps the stick agile, the reinforced blade enhances control when stopping and passing the puck, and the damping system absorbs some of the vibrations. This keeps play behind the net or on the first pass forward more controlled and direct.

The left-handed version with T31 flex should match your usual catching and stick hand as well as your preferred feel on the ice.
