Product information

Color:	black
Stock type:	Links
Goalkeeper Regular/Fullright:	Regular
Stick size:	SR

The FISCHER RC ONE GXPRO2 SR is a goalie stick designed for goalies who value smooth, well-balanced handling during practice and games. The proven construction has been slightly modified and paired with a new black design. Especially in goal, what matters is how controlled the stick feels during quick movements and how cleanly rebounds, passes, and stick plays are intercepted.

- Technology: UD carbon fiber
- Construction: Slightly adapted, proven design
- Functionality: Light Structural Foam for weight reduction and better balance
- Cushioning: Dual Impact Control for lasting shock absorption and impact dampening
- Grip: Smart Grip Technology with a raised texture
- Position: Goalie, Regular
- Variant: Left-handed, SR
- Color: black

In a goalie's day-to-day routine, this design really shines when many small actions must be executed cleanly in quick succession: getting the stick on the ground in time, making controlled saves in the slot, and handling passes with confidence. The reduced weight supports balance, while the cushioning noticeably absorbs hard impacts. The textured grip zone helps you keep a steady hold on the stick even in hectic situations. This model is therefore particularly suited for goalies who train and play regularly and who value not only durability but also smooth handling in their equipment.

When selecting a model, be sure to choose the version suitable for right-handed players and the left-handed stick in size SR.
