Product information

Shoe color: black

Shoe width: R (Regular)

TRUE CATALYST 5X4 REGULAR INT is a goalie skate designed for goalies who are looking for a snug, stable fit with noticeable comfort during practice and games. The one-piece shell design is derived from the TRUE line and incorporates key features of the top-of-the-line model into a version tailored for everyday use in goal.

- Technology: NEUROFIT injection-molded Poly Fusion composite shell
- Construction: one-piece shell design with improved shell layering
- Protection: Good impact resistance for the demands of goalkeeping
- Mounting: SHIFT ATTACK mounting & steel
- Tongue: Lightweight, laminated tongue for a snug fit and comfort
- Inner material: Clarino lining with a snug fit and moisture-wicking properties
- Durability: Stainless steel rivets and PU leather side panels
- Fit: Regular width R, color black, intermediate sizes 37.5 to 41

Especially in goaltending, a stable shell makes a big difference because movements in the butterfly position, when pushing off, and when shifting sideways are transmitted directly through the skate. The one-piece construction enhances this direct feel, while the laminated tongue and Clarino lining snugly encase the foot. Added to this are sturdy details like stainless steel rivets and PU leather on the sides, which is an important consideration for regular use in club play.

The regular width (R) is suitable for a standard fit in the intermediate range. When selecting a size, refer to the conversion chart for skate sizes 4 through 6.5 and your usual EU size.
