Product information

Shoe color: white

The ASICS GEL-TACTIC 12 MEN is an indoor shoe designed for players who focus heavily on quick changes of direction, lateral movements, and a secure midfoot feel during training and matches. Especially in high-intensity indoor sports, it's important to have a shoe that provides stability without sacrificing agility.

- Technology: GEL cushioning
- Stability: TPU TRUSSTIC in the midfoot
- Outsole: TURNTRUSS for support during lateral movements
- Upper: Softer, flexible mesh
- Lateral Support: Reinforced pressure points in the shoe's construction
- Ventilation: Designed to be more breathable
- Intended use: Indoor ball sports
- Color: white, sizes 40 to 46

During play, this design is particularly noticeable when movements aren't just forward but also constantly to the side. The flexible upper keeps the shoe more comfortable in motion, while the reinforced lateral support provides greater control during quick stops and when pressure is applied to the outer foot. In addition, the midfoot construction supports a smoother, more stable feel without making the shoe unnecessarily stiff. This is particularly appealing for club players and ambitious indoor athletes who have multiple training sessions per week and need a shoe that performs reliably in both technical training and matches.

A quick glance at your desired EU size will help you choose the right model, as this style is available in sizes 40 through 46.
