Shoe color: white

The ASICS GEL-TACTIC 12 LADY is an indoor shoe for female players looking for greater agility and a stable footing on the court. Especially during regular training and fast-paced play, it's important to have a shoe that smoothly follows lateral movements while remaining comfortable on the foot. In the white version, the model has a clean and sporty look.

- Technology: GEL cushioning
- Stability: TPU TRUSSTIC technology in the midsole at the midfoot
- Upper: Softer, more flexible mesh
- Lateral Support: Reinforced panels on the upper
- Ventilation: breathable mesh structure
- Usage: Indoor, training, and games
- Color: white
- Sizes: 37 to 42, including half sizes

On the indoor court, the balance of flexibility and stability is particularly noticeable. The softer mesh promotes a comfortable range of motion, while the lateral reinforcement provides extra support during changes of direction. In addition, the TPU TRUSSTIC construction stabilizes the midfoot, which is especially beneficial for club players who frequently accelerate, decelerate, and move laterally during training. The breathable design also helps maintain a more balanced foot climate even during intense sessions.

When choosing a size, the available half sizes come in handy when there's usually little leeway between two regular sizes.
