In everyday life, what often matters most in a sneaker is the combination of a comfortable fit, a pleasant feel when walking, and a design that doesn't look generic. That's exactly where the JAPAN S comes in: The synthetic leather upper ensures the clean, classic lines of this timeless style, while the redesigned sole construction makes the shoe more comfortable for long days. The basketball-inspired details remain clearly recognizable without being too flashy.

The available half sizes help with sizing when greater precision is needed between two standard EU sizes.
