Product information

Shoe color: white

The ASICS SKY ELITE FF 3 MEN is designed for ambitious indoor players who are looking for a direct, secure feel when making quick bursts of speed, jumps, and landings. Especially in field hockey and other high-intensity indoor sports, this shoe's design really shines when you need to jump from a standing position and need to absorb the impact cleanly upon landing. In the white version, the model has a clean and athletic look.

- Technology: RISETRUSS for added support during jumping movements
- Cushioning: FF BLAST PLUS ECO for soft landings and a responsive feel
- Stability: Energy Lock System for a secure fit and stable base
- Performance Benefits: Designed for higher jumps and more controlled landings
- IntendedUse: Indoor sports involving frequent changes of direction and takeoffs
- Color: white
- Size: EU 41.5 to 46.5

In everyday training and matches, it's precisely this synergy that makes all the difference: The shoe supports explosive upward movements without losing the feel for the court. At the same time, the cushioning helps you transition smoothly into the next move, which is particularly important during frequent jumps, blocking movements, and quick transitions. This makes the model especially suitable for club players who train regularly indoors and expect not only comfort but also targeted support for dynamic movements from their shoes.

For a comfortable fit, it's best to choose your usual indoor shoe size with sufficient support in the midfoot.
