Product information

Shoe color: black

Shoe width: R (Regular)

TRUE CATALYST 5X6 JR is a hockey skate designed for junior players who regularly take to the ice for practice and games and are looking for a responsive feel and reliable support. The anatomically contoured fit comfortably wraps around the foot, while the balanced construction effectively combines stability and mobility.

- Product Type: Junior Hockey Skate
- Fit: Anatomical, width R (Regular)
- Feel: Direct skating feel with solid power transfer
- Stability: Designed for regular practices and games
- Skating characteristics: supports quick starts, precise changes of direction, and controlled turns
- Intended Use: ambitious youth players, recreational and club hockey
- Color: black
- Sizes: EU 33.5 to 36.5, Skate Size 1 to 3.5

Especially for young players, it's important that a skate not only provides support but also allows for smooth movements on the ice. That's exactly where this model excels: The foot sits snugly in the boot, providing a controlled feel during acceleration, tight turns, and changes of direction. For juniors in a club or with regular ice time, this offers a perfect balance between comfort and responsive feel.

When choosing a size, it's worth taking a close look at both the EU size and the skate size to ensure the fit and support on the ice are just right.
