## Product information

---

Shoe color: black  
Shoe width: W (Wide)

The TRUE CATALYST 7X6 WIDE SR is a performance hockey skate designed for ambitious players who are looking for noticeably more support, stability, and direct power transfer during practice and games than what a basic entry-level model offers. The wide fit provides more room inside the boot without sacrificing a snug, athletic fit, and supports an agile skating feel during quick bursts of speed and sharp changes of direction.

- Product Type: Performance ice hockey skate for senior players
- Fit: W / Wide for wider feet
- Construction: Sturdy design for intense practices and games
- Power Transfer: Direct push-off during strides and acceleration
- Feel: athletic, agile, and designed for precise edge control
- Comfort: Secure hold with a comfortable fit
- Color: black
- Sizes: EU 42 to 47.5 / Skate Size 7 to 11.5

The difference really shows in everyday club life: Anyone who skates regularly needs a skate that stays securely on the foot even at high speeds and responds to movements without delay. This is exactly where the CATALYST 7X6 fits in. The series' stable construction supports powerful strides, while its design—focused on agility—doesn't restrict movement during turns, edge work, and quick changes of pace.

The wide version is suitable for players who need more room in the forefoot or overall. To make the right choice, it's worth taking a close look at your usual skate size and the desired fit.
