Product information

Color: white

EXEL VISION BLADE is a floorball blade designed for players who are looking for a specific blade when replacing or fine-tuning their stick. The white design has a clean, minimalist look, but the main focus is on the choice of blade orientation: available for left- and right-handed players.

- Product Type: Floorball Blade
- Model: VISION BLADE
- Brand: EXEL
- Color: white
- Blade orientation: left or right
- IntendedUse: Floorball training and games

In floorball in particular, having the right blade makes a big difference, because ball control, dribbling, and shots depend heavily on the familiar feel of the blade. The EXEL VISION BLADE is therefore primarily designed for club players and those who train regularly who want to replace an existing blade or deliberately maintain the same feel of the stick. For teams and coaches as well, clearly labeled left- and right-handed versions are helpful in everyday use when equipment needs to be quickly and appropriately available.

When selecting a blade, it's important to choose the correct orientation that matches your usual stick handling style.
