Product information

Color: white

EXEL ICE WHITE is a floorball blade designed for players who pay close attention to the blade when replacing or fine-tuning their stick. The white version of the Exel L ICE is designed for both left- and right-handed shooters and is suitable for practice and games when you're looking for a matching Exel blade in the same orientation.

- Product Type: Floorball Blade
- Model: Exel L ICE MB
- Application: Replacement or interchangeable blade for floorball sticks
- Blade orientation: available in left- or right-handed versions
- Color: white
- Skill Level: Suitable for regular practice and games

Club players and youth players in particular know just how much a blade affects ball feel, passing, and shooting. With a separately available blade, you can continue playing with a familiar setup or easily replace a damaged blade without having to change the entire stick. This is particularly useful in everyday training when equipment needs to be back in action quickly and the familiar characteristics should be preserved.

It's important to choose the correct blade orientation: left for players who use a left-handed blade, right for players who use a right-handed blade.
