Product information

- Intended Use: Replacement or spare blade for floorball sticks

When it comes to a blade, that familiar feel often determines timing, ball control, and shots. Players who already use a specific Exel blade shape will find that this model stays close to their usual setup, saving them the hassle of adjusting during their daily training routine. This is particularly useful for club players who need to replace a worn-out blade or keep a second one on hand. The left- or right-handed version ensures that the blade matches your playing side.

Before making your selection, it's worth taking a quick look at the correct blade orientation and compatibility with your existing stick.
