- Blade orientation: Available in left- or right-handed versions
- Variant: L
- Color: mint green
- IntendedUse: Replacement or customization of a floorball stick

Especially during regular training, choosing the right blade makes a big difference: ball control, maneuvering along the boards, and timing your shot all depend heavily on how familiar the shape feels. The Megalomaniac MB is designed primarily for club players who aren't just looking for any replacement blade, but want to stay as close as possible to their usual setup in terms of feel. A clearly defined blade variant is also helpful for teams or coaches who specifically prepare equipment.

When selecting a blade, pay attention to the correct blade orientation: "L" stands for left-handed; the model is also available in a right-handed version.
