For club players in particular, choosing the right blade is often crucial because it directly affects how the ball feels. A blade like the EXEL X-BLADE BLACK is ideal for anyone looking for a familiar feel when passing, receiving, and shooting—without having to switch out the entire stick. In regular practice, this very part of the stick often makes the difference when speed, technique, and timing need to come together.

When selecting a blade, it's important to choose the correct blade orientation so that the stick side and your playing style are a good match.
